THE TIMES.

A. B. C. EMENT, EDITOR.

WEDNESDAY, APRIL 11, 1906.

THE CRIME OF THE AGE.

Secty. Taft was one of the principal speakers at the recent celebration at Tuskegee and is reported as saying among other things that the "thirteenth amendment gave to the negro the boon of freedom but it left four or five millions of people, not 5 per cent of whom could read or write, and all of whom had been dependent upon others for what they ate and wore and did, as children turned loose in the world." And yet Mr. Secretary those ignorant people, those "children," your party turned loose upon the South to suck its life blood, to destroy its civilization, to retard its progress to threaten its peace and to humiliate its people. Cease being the partizan for the moment and you will agree with us that it was the most indefensible crime of the age in which we live.

Yes there are three flags but one of them is "furled." A dead but dear past, a stainless banner.

Nothing from the Norfolk county Democracy for the past two weeks—"Things" must be improving.

President Roosevelt and the Republicans of the Senate are at daggers draw. "Lay on McDuff and d——n be he who first cries hold enough."

Now that Mr. Joseph Bryan has told the Richmond College boys all about Journalism and placed the salaries for such work between $2,500 and $25,000, we will expect a rush of applicants.

Jefferson Davis will be a familiar name on the Senate roll. May be some unreconstructed hot head of the North will not fancy the name. Would that the living were the mantle of the dead Statesman as well as bear his name.

Speaker Cannon must have the foot of an elephant as when he puts it on a bill out goes its life. This is monstrous and makes our boasted freedom a mockery. If we are to have a dictator let's save the expense of representatives. Congress is surplusage with Cannon in the chair.

The good women of Winchester prayed and yet the "vets" won. Let them go back to their Bibles and get comfort as they read that the Savior prayed that the cup might pass from him and yet he drank it to it's bitter dregs. Some day we will know even as we are known. "Thy will not mine."

Governor Swanson has named the 16th of April as Arbor Day. Now let us make something of it and not let it die with mere official recognition. Trees are being cut down by thousands and it behooves us to plant a new one in place of every one cut down. Virginia can't afford to become treeless. Let our schools remember Arbor Day, and all our citizens.

And now Legislator Houston, of Hampton, is wondering why one of his bills was tampered with. Really this thing has gotten to be disgraceful. If it is the result of hurry then let our law-makers take more time and do things decently and in order, and if it has been criminally done let the guilty be brought to punishment.

The Tidewater Railroad is pushing it's way from mountain to seaside and scattering material blessings wherever it goes. It has given a new thrill of life to Lunenburg, whose values, especially in timber lands, have gone a soaring. Our congratulations to the "Free State" and may it "live long and prosper." And the Tidewater has not been "a passing around the hat" and asking for local aid. It is using its own money to press its own scheme and at the same time for the public good. Welcome, thrice welcome to Virginia.

It is said that the rate bill will pass the Senate but in any "question able shape" that it's father won't recognize it. The people send lawmakers to Washington charged with the sacred duty of making laws, but the lobbyist goes of his accord and whispers to the law-maker just what to do. What a pity that the people can't discharge the lawmaker and press the lobbyist into service.

We are constantly reminded of the increase in value of Southside Virginia real estate. Men with money for investment can do no better than buy such property. We know of one farm that sold recently for less than $6000 for which the purchaser has now been offered $12000. There is not only life in the old state yet but vigorous life. Let our counties be properly represented at Jamestown and we will feel the thrill of a great boom in business from mountain to sea-side. The morning light is breaking on the farming world.

CHANGES OF TEXT BOOKS IN OUR SCHOOLS.

With the investigations from all points of the United States of the railroads, insurance, beef trusts, oil trusts, juggling of bills in our Legislature, and with the Rockefellers, Hamiltons, McCalls, Cramp and so many others will cause doubts to grow in the minds of the best of men, if they are not careful. Now we have had to pay tribute to all of these, more or less without relief. Shall we now pay it to the remorseless book companies and their men? Cannot some intelligent men devise some means or law to stop so much, and so many revisions of the text books? The revisions may be the scheme of these companies to force the cities and counties to make the changes of books.

I believe our Superintendent is honest in all he does and says, and I believe it about the other officials of our schools, and if I have written anything to reflect upon them I am sorry. I appeal to them to try to find a way to stop the change. We know the book companies have their counsel and agents everywhere, even in the Legislature.

I have discussed this subject with intelligent men, and they admit that book companies do offer large sums all over the state to prominent men to procure the sale of their books, sometimes as much as five hundred dollars for one history, or the whole list. Yes, I knew that we had the multiple lists and the committees of the counties and cities selected the list for county or city. I heard the book companies and their bribes were "cussed out" of this county ten years ago, but when I pay fifteen dollars for books for two children, I doubt the cussing more and more each time I pay. Mr. Officials if you had as many children as I have I believe you would doubt. Now cannot something be done to relieve the people? Or shall we pay tribute to the companies as we do to all the trusts, with no effort to obtain relief? Appeal to the law-makers, courts, or have laws made to put down the book companies and the shrewd men.

The Superintendent admits the changes and expenses unavoidably exist. May not the many revisions and supplements of the text-books by the book companies and their shrewd, influential men be a scheme by which, they force the changes and sale of their books upon the honest sch ol officials? And may not a patron, who has borne the evil in silence for twelve years without any sinister motive to his fellowmen, ask relief for himself and many others bearing the same burden? If somebody is not profiting by the changes, why do we have them? Can you stop them? I am afraid the companies and their men are fleecing old Virginia, and with the best of motives for my fellowmen I seek our relief.

From the Superintendent's explanation it seems the school officials are powerless to stop the changes and revisions of the books If there are no laws to prevent the evils, have them made, seek relief from every point. PATRON.

FIFTY CENTS

In some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

High Praise for GAMP CHEMICALS

Cumberland, Va

William H. Camp,

Dear Sir:—I used your chemicals last year on tobacco, and I have been raising tobacco about thirty years; have been using different brands of guano, but nothing gives me better satisfaction than the Camp's Chemicals. My crop of tobacco measured 42 inches long and 22 inches broad, and I must say it's the best fertilizer for tobacco I ever used. I used it on cabbage, and I made a nice crop of them the first year, and it is the first crop in fifteen years that did not burn so I believe that Camp's Chemicals is a blessing for poor people. If ever I have to use any fertilizer, I always will use it.

Respectfully,
J. L. FERLON.

Hollywood P. O
Appomattox Co., Va.

Mr. W. H. Camp,

Dear Sir:—I used the Prepared Chemicals I bought of you under my corn, Tobacco, and Garden. I never had a better garden. My tobacco was good. Used it by the side of a high priced guano and could see no difference. My boys planted a large lot of tobacco and used a high priced guano, and through the middle of the lot they used Chemicals through four rows and we could never see any difference. Several of my neighbors came to see it, but could never point out the four rows. My wheat is looking well. I never expect to use any other as long as it remains at the present standard. Please send me six barrells, price $10 per ton and oblige.

Respectfully,
TURNER F. INGE.

Loco, Va.

Mr. W. H. Camp. My Dear Sir:—Your favor received, in regard to the test made with Chemicals, will say that I used it the past season by the side of the Owl Brand Guano under Spanish peanuts, and could see no difference in growth or yield. I tested it year before last under Spanish peanuts by the side of Venables $26.00 guano, and B. B. B. I made just as good peanuts when Chemicals were used as when the high priced guano. I expect to use more of your Chemicals this year than I have ever used, and hope to sell a large lot of your Chemicals this season. I think it is a fine fertilizer. My impression wherever it has been used.

Very truly, your friend,
A. B. WIDFIELD.

Reedy, Va.,
January 24, 1906.

Mr. W. H. Camp,

Dear Sir:—In answer to enquiry made by your agent, W. E. Bell, of Lynchburg, Va., about Camp's Chemicals, I will say that I have been using this fertilizer for a number of years and have used it on all of the different crops grown in this section, and I have never found its equal as a fertilizer. I have never been and always regretted at harvest time or when cutting tobacco that I had not used more of Camp's Chemicals and less fertilizer. I find the best fertilizer made, and I show my faith by my work, as I have spoken to the above named agent for four tons or more the coming season.

Yours most respectfully
T. W. SEWARD.

Mr. W. H. Camp

Dear Sir

I bought from your agent B. F. Wingfield one ton of your Chemicals and mixed them according to your directions and used them by the side of high grade fertilizer and they did as well or better.

I got a fine price for my tobacco I got $15.00 per hundred for four boughf Chemicals and am going to use them again.

Yours truly,
J. E. Childress.

April 4th, 1906.

Mr. W. H. Camp—

Yours to hand and noted. Will say in reply certainly I expect to use your Chemicals they acted all right as heretofore. I made a fine crop last year some as large tobacco as I ever saw grow anywhere, and received satisfactory prices. I expect to send in my order in time to prepare it for use when I will need it. I will close hoping you will have an enormous sale this year.

Your friend.

Johnstown, Pa. having had both flood and fire, is prepared to expect either a tornado or earthquake.

Mrs. Sallie Rutledge died at her home in the chapel neighborhood Sunday and her remains were interred Monday. The deceased was 82 years of age and was a shining example of the religion of the Christ she so devoutly followed. She was a member of Wesley Chapel and the sweet communion of her spirit with the saints in glory was never doubted by those who knew her. She was the mother of our esteemed countymen, Messrs. John Rutledge, L. E. Rutledge, and Mrs. S. B. Giles, of Evergreen.

We are pained to announce the serious accident which befell Mr. W. J. Trent last week, and which resulted in the crushing of his leg. He was riding a spirited colt and in attempting to jump in some way twisted his leg and broke it. He is doing well and will recover, but he is good for several week's rest from his farm troubles.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Aker, of Wool, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recomend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced or live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: I have used Foley's Kidney Cure and take great pleasure in stating it cured me completely of kidney disease, which certainly would have cost me my life."

Rheumatic Pains Quickly Relieved.

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is done worth many times its cost.

J. R. Atwood, Appomattox, R. J. Carter, Prospect. E. F. Glover, Evergreen.

Some persons are inclined to believe that even biennally is too often for a legislature to meet.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested To say it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of suffers have testified to permanent cures by its use. Why suffer when Pain Balm affords such a quick relief and costs but a trifle?
